PRACTICE AREA UPDATES

TRANSFORMING IDEAS INTO ASSETS<sup>SM</sup>

Hoffmann & Baron, LLP is a full-service intellectual property law firm which specializes in prosecution, counseling, licensing, and litigation of patent, trademark, and copyright-related issues worldwide. The firm's practice also includes unfair competition, trade secrets, technology-related agreements, and due diligence.

In addition to the exceptionally strong technical and academic credentials of the partners and associates, most of our attorneys have held research or engineering positions in industrial or academic environments. Our role as legal advisors is enhanced and expanded by this immersion in the technology of the fields we serve. Such experience also provides us with insight into a client's legal challenges and opportunities. The firm can readily tailor its services to fit the intricacies and challenges of your industry.

The firm's attorneys practice in virtually all technological disciplines providing business-oriented solutions to our clients' intellectual property issues. These include aeronautics and aerospace, artificial intelligence, automotive systems, bio-affecting agents and delivery systems, biochemistry, bioinformatics, biotechnology, business methods, chemical processes and systems, computers, consumer products, cosmetic chemistry, dietary supplements, drug delivery systems, e-commerce, electrical processes and systems, electromechanical processes and systems, electronics, fiber optics, food processing, lasers and optics, manufacturing and materials, mechanical processes and systems, medical and dental devices, microbiology, molecular biology, nanotechnology, organic and inorganic chemistry, petroleum processing and products, pharmaceuticals, software, and telecommunications, among others.
